## PROFILE

Software Developer with 3+ years of experience at Infosys, with experience in application development, backend development, API development, database management, data migration, testing, and troubleshooting. Worked on a Roku-based OTT application for a European telecom client, developing application features and working with APIs, while also contributing to a backend project involving REST API development, reverse engineering, MongoDB data analysis, and data migration. Comfortable working with JavaScript, Node.js, MongoDB, SQL, Bright Script, and API testing tools.

## TECHNICAL SKILLS

**Programming:** JavaScript, BrightScript, Python, SQL, XML

**Application Development:** Roku SDK, SceneGraph, UI Development

**Backend:** Node.js, Express.js, REST APIs

**Databases:** MongoDB, PostgreSQL

**API & Data:** API Analysis, JSON, Data Migration, Data Validation

**Testing & Troubleshooting:** Unit Testing, Integration Testing, API Testing, Debugging, Bug Fixing

**Tools:** Postman, Charles Proxy, Git, Git Bash, PowerShell, Visual Studio Code, Jira

**Methodologies:** Agile, Scrum

## WORK EXPERIENCE

### INFOSYS LTD - Systems Engineer / Senior Systems Engineer — India | 2023 – 2026

- Worked on software development projects involving OTT applications and backend systems.
- Contributed to application development, backend development, API-related activities, database work, testing, and troubleshooting.
- Worked closely with developers, QA engineers, UI/UX teams, and other stakeholders in Agile/Scrum teams.
- Analysed technical requirements and existing systems to understand application behaviour and implement required changes.
- Participated in development, testing, debugging, and delivery activities throughout the project lifecycle.

## KEY PROJECTS

### OTT Application Development — Roku Based Application (European Telecom Client)

- Developed application features using **BrightScript, Roku SceneGraph, Roku SDK, and XML**.
- Built UI screens and components for Home, On Demand, Product Details, Login, content browsing, and other application flows.
- Worked on live TV, VOD, playback, replay, recordings, and content navigation features.
- Implemented reusable UI components using SceneGraph components such as Row List, Markup List, and Label List.

- Worked with REST APIs to retrieve and display application and content data.
- Used **Postman and Charles Proxy** to analyze API requests and responses during development and troubleshooting.
- Performed unit and integration testing and resolved defects identified during development and QA.
- Investigated performance and device-specific issues across different Roku models.
- Participated in product release activities and prepared product release documentation to support successful releases.

### Backend API Development & Data Migration — OTT Platform

- Developed **REST APIs using JavaScript and Node.js** based on business requirements.
- Worked on the backend of an existing OTT application used for internal projects and client demonstrations.
- Analyzed the existing application through **reverse engineering** to understand API usage and data flow.
- Used **Postman and Charles Proxy** to capture and analyze API requests, responses, and JSON structures.
- Analyzed MongoDB collections to understand their structures, relationships, fields, and dependencies.
- Replaced limited and scattered existing content with new structured data while maintaining the required relationships between collections.
- Performed **data migration and validation** to ensure the updated data matched with the expected application structure.
- Used **Git Bash** to work with the cloud-hosted backend and inspect collections, JSON structures, and data.
- Validated the migrated data through API responses and application behavior and investigated issues when results did not match expectations.

## EDUCATION

- **Master of Computer Applications (MCA)** India | 2022 - 8.3/10
- **Bachelor of Computer Applications (BCA)** India | 2020 - 8.2/10

## CERTIFICATIONS

- **PostgreSQL / SQL Developer Certification** — 2026

## LANGUAGES

**English** — Professional Working Proficiency
